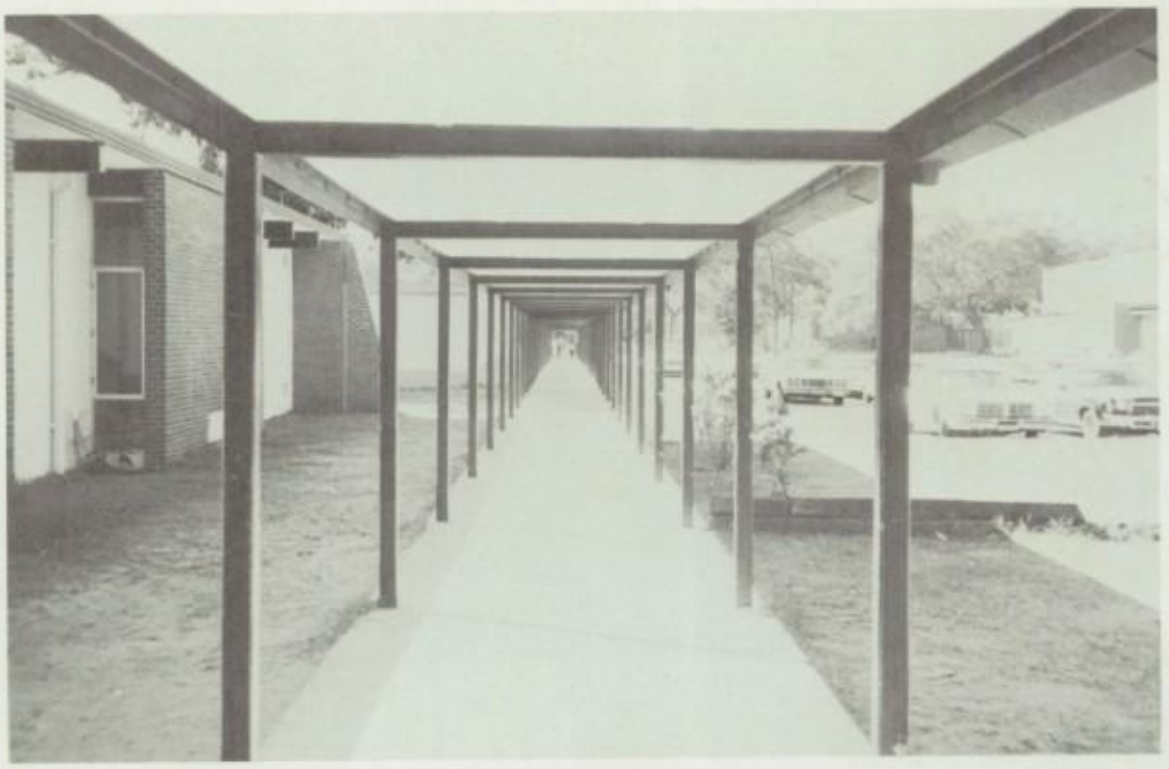
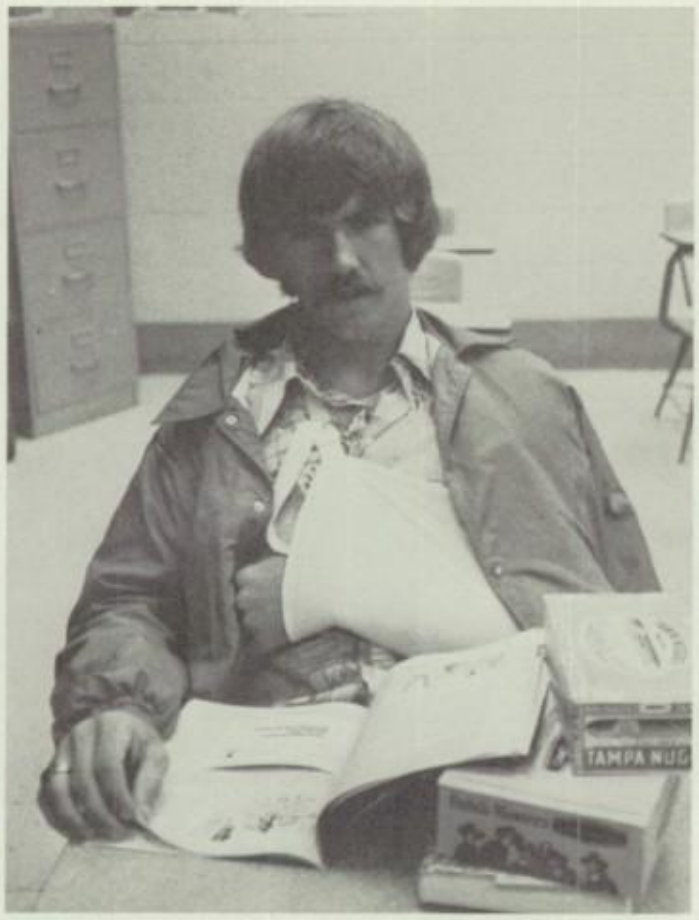
Through the halls
of McCracken
Students prepare themselves
for future endeavors





"For me there is only the traveling on paths that
have heart, on any path that may have heart.
There I travel, and the only worthwhile challenge is to
traverse its full length. And there I
travel, looking, looking, breathlessly."

Standing L to R: Joe Tkacsik President, Velvia Fender Vice President, sitting L to R: Melissa Palmer Secretary, Lori Burns Treasurer.

When down the paths of life I tread,
And mountains rear their backs up high,
I must go o'er or 'round instead
To meet their challenge as they lie-
To do but less cannot suffice.
If rocks and stones impede my way;
And stub my toes and bruise my feet,
It stops me not, nor do I stray-
With rocks alone I'll not be beat!
Mistakes?-I learn, and don't do twice!
I quaff the mead so sweet of love
And smell its fragrance in the air-
But seek no guidance from above
In how to choose-thought I may err
For wisdom can't come from advice.
And though I may not live again
I'll live, right, now and now contend.

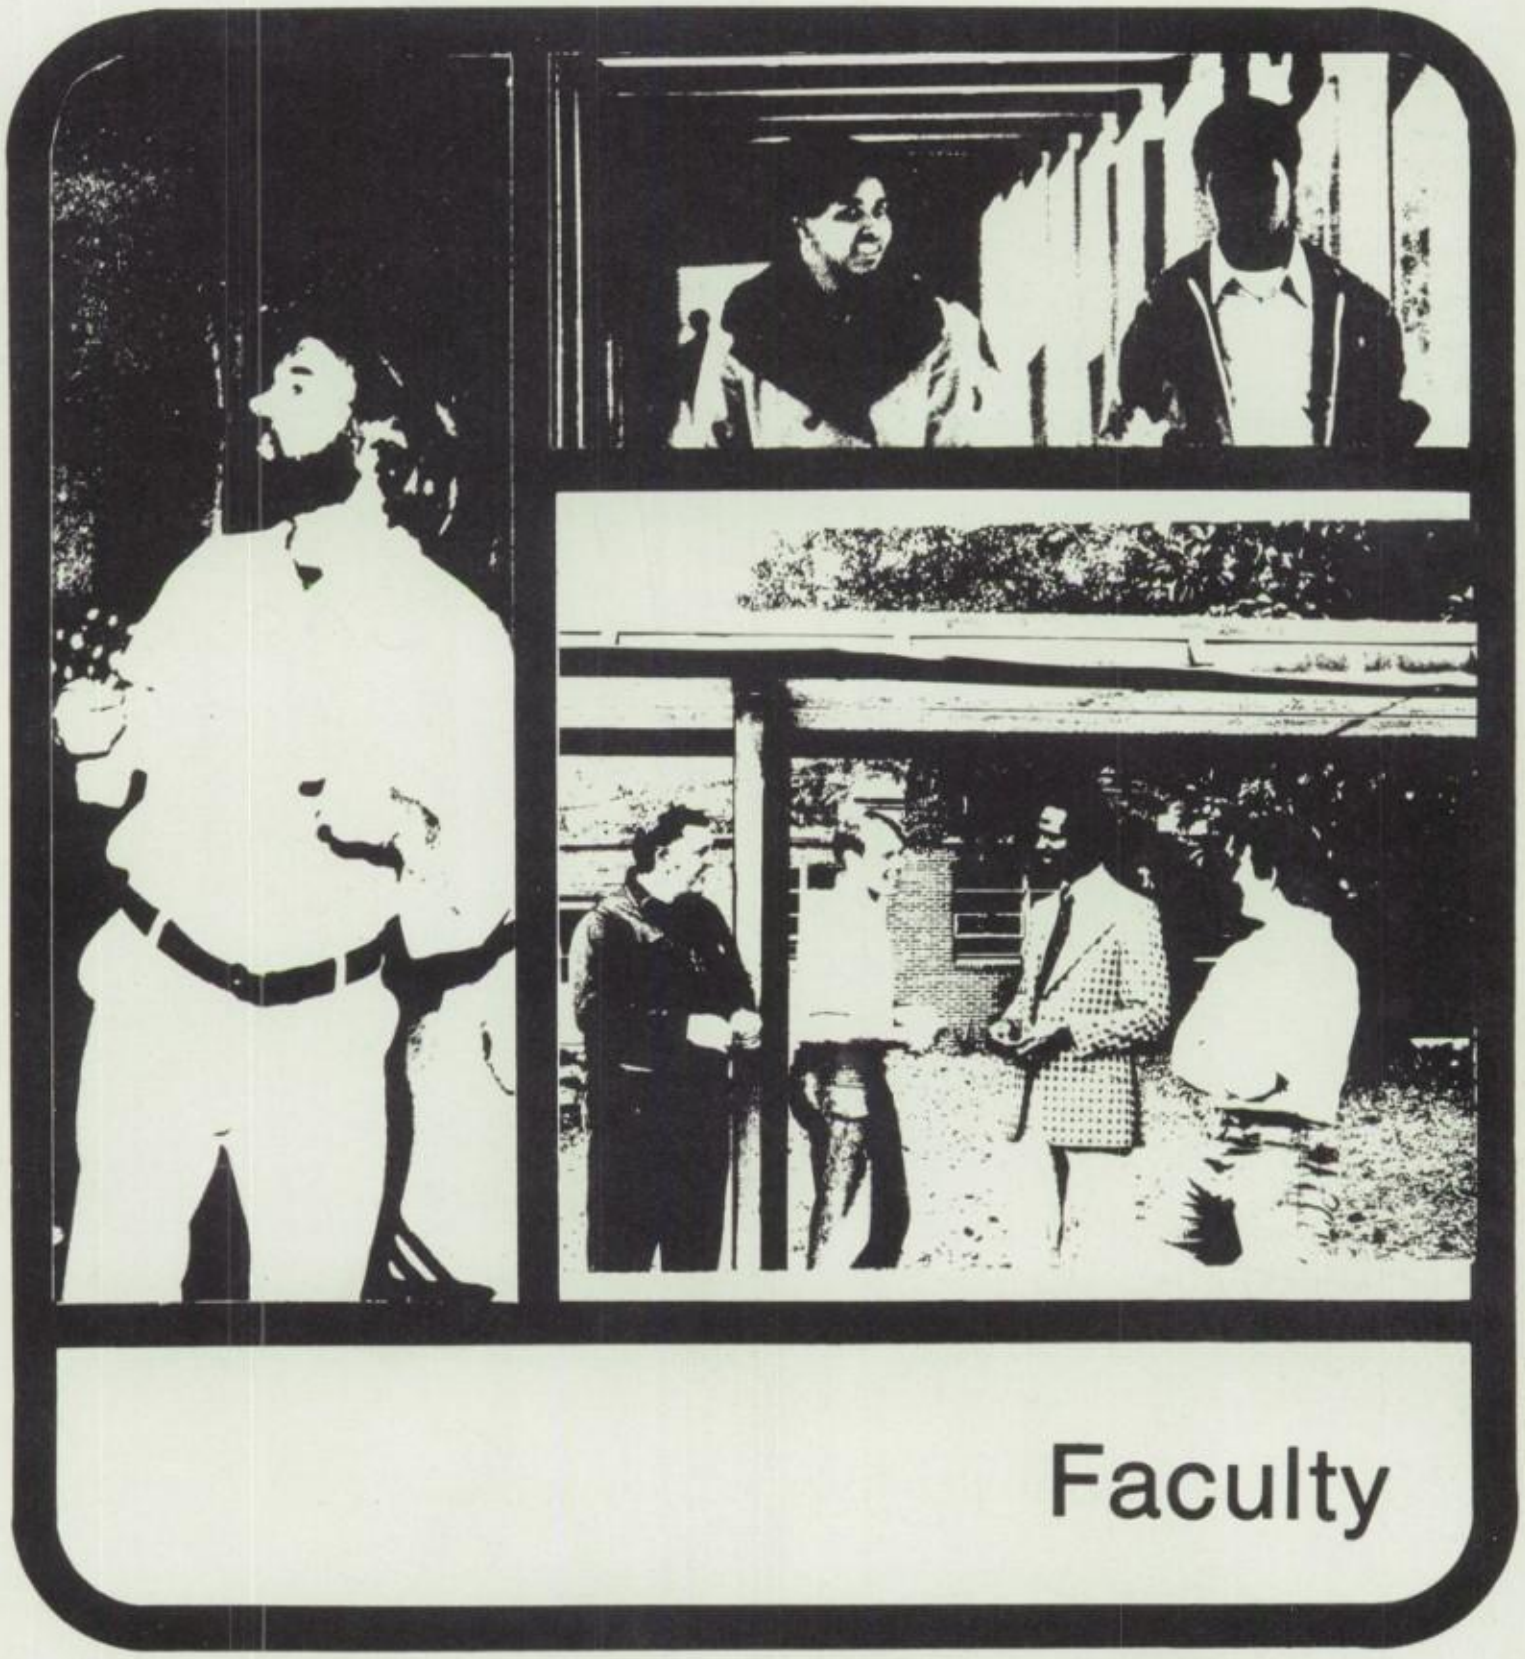
REFLECTIONS '78



Faculty

H. E. McCracken High School has 723 students and is comprised of grades 7 - 12. The 1977-78 school year has been one of records: The largest staff of teachers to accomodate the largest student body in our school's history. Many accomplishments have been noted in the classroom and on the athletic field. This is the year our school will endeavor to become a member of the Southern Association of Schools and Colleges. As of this year we began a new and wider vocational program at the recently completed Beaufort-Jasper Career Center. We have also successfully broadened our curriculum to meet the objectives of our more diversified program. Our sincere congratulations to all students and especially the graduates of 1978

When you begin building your new home on Hilton Head Island, begin at the beginning. SANDLAPPER NURSERY is the beginning. SANDLAPPER is operated by the only graduate horticulturist operating a nursery in the Hilton Head area. Let Stiles Harper and John Summerall show you how to begin your project, with site analysis, landscape planning and carefully chosed planting.

Once you know how to work with your land and the plants on it Stiles and John know so well, then you can proceed to the next steps with the architect and builder. Both are natives of the area, were educated here and know what thrives best in all seasons--and how to keep all your planting healthy.

All work guaranteed, competitive prices, everything from nursery supplies, and stock, to gifts and garden tools. Expert plant advice, and fertilization study. Make your home a complete success, plan it carefully and remember, begin at the SANDLAPPER NURSERY.
